

The Line Material Glass Housed Arrester

Jonathan Woodworth ArresterWorks 8-2012

Produced in South Milwaukee WI from 1936 to 1952 and in Olean, NY by the Line Material Company. Ralph Earle was the primary inventor for this arrester and his boss Alwin Steinmayer. Mr. Steinmayer was the first Line Material person to patent an arrester (1928). Ralph went on to receive many patents on arresters during his line material career. Line Material later became McGraw Edison and later yet Cooper Power Systems.
